

# B&O JUNIOR JUNCTION

## SHOE BOX DIORAMA

**Using a shoe box, or other small cardboard box, build a model of what your home would look like if you had to live in a railroad boxcar.** Your model should include a place to sleep, a place to eat and cook, as well as a place to spend time with your family. You can use coloring supplies (markers/crayons), construction paper, or pictures from magazines.

**What would be the hardest part about living in a boxcar?**

---

---

---

**There isn't much room for all of the children living in the same boxcar.**

If you could only take 5 things with you to live in the car, what would you take? Why?

---

---

---

Share your Boxcar Diorama or tell us what 5 things you'd take with you to live in a Boxcar on Facebook [@BandORailroadMuseum](#) or Instagram [@BORailroad](#).
